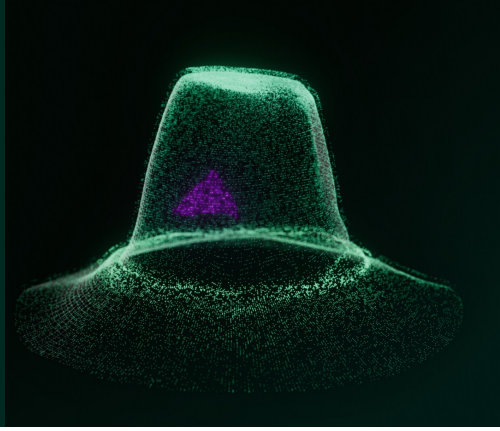
& DCA

Your custom partnership overview — built for scale, savings & growth



$12.3M	96%	27,000	13,950	$0
Revenue upside / yr	First-time right rate	Appointments saved / yr	Chair hours recovered / yr	CAPEX to start

APEX DENTAL PARTNERS

12.5%

annualized revenue potential increase

"Dandy values education, technology, and people. That's what makes them a great partner and not just another lab."

— Dr. Layla Lohmann
Founder

OPEN & AFFORDABLE DENTAL

96%

reduction in remakes

"Reduced crown appointments by 2–3 minutes per case. That adds up to hours of saved chair time per month — and our remake headaches are gone."

— Clinical Director

DENTAL CARE ALLIANCE

99%

practices still using Dandy after one year

"The training you guys give is incredible. The onboarding has been incredible. The whole experience has been incredible."

— Dr. Trey Mueller
Chief Clinical Officer

Recommended Next Step: Risk-Free Pilot

- Start with 5–10 locations — no long-term commitment required
- Measure remake reduction, chair time recovered, and revenue lift in real time
- Dedicated onboarding team + change management support included
- Scale across the full network once ROI is validated

> *I've used Dandy Dental Lab for the last two years for crowns, implant crowns, and removables, and their work is consistently excellent. The quality is outstanding and their customer service is even better. I wouldn't change this lab for any other.*

The Dandy Difference & ROI

THE DANDY DIFFERENCE

Built for DSO scale. Designed for provider trust.

WHAT YOUR DSO NEEDS	DANDY	TRADITIONAL LABS
Patient Volume Growth	30% higher case acceptance, expanded services like Aligners	No growth enablement
Multi-Brand Consistency	One standard across all your brands and locations	Varies by location and vendor
Waste Prevention	AI Scan Review catches issues before they cost you	Remakes discovered after the fact
Executive Visibility	Real-time, actionable data across your entire network	Fragmented, non-actionable reports
Capital Efficiency	Premium scanners included — no CAPEX required	Heavy CAPEX, scanner bottlenecks
Change Management	Hands-on training that respects provider autonomy	Minimal onboarding, slow rollout

ROI BREAKDOWN

Estimated annual financial impact for DCA (based on 100 practices).

DENTURE WORKFLOW IMPACT

$9.0M+

incremental production / year

- 2,250 appointments freed / month
- 1125 chair hours recovered / month
- 1.5 fewer appointments per case
- $750,000 incremental production / month

FIXED RESTO REMAKE IMPACT

$3.3M+

total financial upside / year

- 60% fewer remakes with AI Scan Review
- 75 remakes avoided / month
- $60,000 lab costs avoided / year
- 450 chair hours recovered / year

COMBINED ANNUAL UPSIDE (100 PRACTICES)	DENTURE	FIXED RESTO REMAKES
$12.3M+	$9.0M+	$3.3M+
