dandy

The sleep patient journey, end to end

From chairside screening to a delivered appliance — here's what you do, what your patient experiences, and what Dandy handles for you at every step.

WHO DOES WHAT
- You — the dentist
- Your patient
- Dandy

1 Screen for sleep apnea

DENTIST Follow the sleep apnea screening checklist and discuss with your patient.

PATIENT Accepts the free Home Sleep Test (HST).

2 Order the HST in Chairside

DENTIST Place the HST order in Chairside.

DANDY Patient Coordinator (PC) begins the patient workflow and will reach out to the patient during business hours.

> **Reduce appointment time:** Chairside will prompt you to scan for the MAD now — no second scanning visit if your patient accepts treatment.

3 Send the sleep ring home

DENTIST Give your patient the sleep ring to take home.

DANDY PC texts the patient with a secure link to upload the required medical and insurance documents.

4 Forms come first

PATIENT Sends the PC the documents needed for medical review and benefits verification.

DANDY **Unlocks the sleep test only after the forms are complete.**

5 Test night

PATIENT Wears the ring for one night of sleep — at least 4 hours.

DANDY Manages telehealth and the insurance benefits check in the background.

CONTINUES →

6 Physician review

PATIENT Waits for results.

DANDY Coordinates with a board-certified Sleep Physician to review the HST results.

7 Results & recommendation

DANDY PC shares the results, insurance coverage, and treatment options with the patient. Qualifying positive diagnoses receive a MAD recommendation; others may still choose to move forward with treatment, but it will not be billed to insurance.

DENTIST Review the results — Dandy shares them with the patient; you're kept in the loop.

DECISION POINT

★ **Your patient accepts treatment**

8 Order the MAD

DENTIST Order in Chairside — quick if scans were captured with the HST order.

DANDY Secures insurance pre-authorization.

9 Deliver the appliance

DENTIST Deliver the MAD once Dandy confirms the insurance documentation is ready.

PATIENT Receives the MAD and pays you their portion.

DANDY Handles all the medical billing.

10 Payment & better sleep

DENTIST Receive the insurance payment directly.

PATIENT Sleeps better — and healthier.

SUPPORT AT EVERY STEP

At any point in the process, email **sleep@meetdandy.com** for support.

PC SUPPORTS PATIENTS THROUGHOUT JOURNEY

The patient and Patient Coordinator share a **private text thread** for all questions and support — or can schedule a live call if desired. **PC hours: 9 am–6 pm EST.**

TRACK IT ALL

Track your patient's journey in **Chairside** and the **Practice Portal** — and review all results there once ready.
